

Paramount Announces Direct LPR Solution

Increase Recovery Rates And Decrease Staging Costs With Paramount's Direct LPR Solution

We've partnered with Genetec to utilize AutoVu™, their high-performance, automatic license plate recognition that provides real-time insights and system alerts directly to Paramount for vehicles found on its vast, industry-leading camera network. Paramount is Genetec certified with our staff undergoing rigorous training and testing for both their software and hardware.

The Paramount LPR Difference

Direct real-time repossession recovery orders on license plate hits

- **Industry-leading technology.** With coverage of over 20m+ plate scans per month and over 250m+ plate scans per year
- **Realtime insights.** When our camera gets a hit, the system alerts are sent directly into our system for instant action 24/7/365
- **Direct recovery from Paramount.** When an actionable system alert is received, Paramount will initiate the recovery process.

LPR Benefits

- **Automatic repossession order on confirmed hits**
- **Increases recovery percentages**
- **Decreases administrative costs**
- **Reduces days to recovery**
- **LPR Staging of client hotlists**
- **Reduces charge-offs and skips**
